INTERNATIONAL SEARCH REPORT

PCT/US04/03794

Continuation of Box I Reason 2:

Claims 1-7, 9-15, 17-18, and 20 are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT Article 6 because the claims are indefinite for the following reason(s): no searchable structure/sequence (i.e. corresponding to the claimed variants of known SEQ ID NO: 1) was claimed, thus only a general search of the invention as to these claims could be conducted.

Continuation of B. FIELDS SEARCHED Item 3:

East (USPTO-Internal Patent/Publication); STIC (USPTO) Sequence DB search of SEQ ID NOS: 1 (wildtype) and 3 (only SEQ's claimed; hand-entry search as CRF still not in compliance). Based on the prior art of record, and databases searched, it is noted that SEQ ID NO: 3 (substituted variant of SEQ ID NO: 1) was found to be free of the prior art.
